

VisiCon®

Storing and transferring hazardous liquids

VisiCon®

The next generation
of safety containers

Perfect storage of liquid hazardous substances

Keep track of your media

Thanks to the new VisiCon containers from DUPA with integrated sight glass with level monitoring, you always know the exact amount of consumables left for use. The cap locking mechanism and the ergonomic metering tap make the safety containers particularly easy to use. In addition, optional labels may provide chemical codes for fast and easy identification of contents and a QR code on the labels may be scanned for rapid access to corresponding data sheets.

Technical details

- » Container capacity 1 litre or 2 litres.
- » Integrated sight glass with scale for precise level monitoring.
- » Lockable cap.
- » Prepared for container labelling compliant with the German hazardous substances ordinance (GefStoffV) and the regulation for safety and health markings and symbols, Workplace Directive A1.3 (ASR).

Accessories

- » Self-closing precision metering tap.
- » Replaceable medium label.
- » Stainless steel safety funnel with earthing cable and crocodile clip.

VisiCon - Safety containers made of stainless steel with integrated sight glass with measuring scale

Details

Safe dispensing and precise measuring of flammable liquids, when high media purity or high media resistance is required.

- › Closes tightly, even in extreme situations.
- › Captive cap on flexible shaft, including cap locking mechanism.
- › Flame arrester in container neck.
- › Level control via integrated sight glass measuring with scale.
- › Markings prepared according to GefStoffV and Workplace Directive A1.3 (ASR).
- › Optionally available with exchangeable medium labels incl. individual engraving of chemical codes, QR code etc.

Medium label, optionally with individual engraving

Contents [in l]	Dimensions [in mm]	
	Ø	Height
1	100	210
2	120	270

Material	Ref. no.
Stainless steel, 1.4571	5.90.001
	5.90.002

Accessories

Medium label for 1 l safety container, engraved	5.90.001-11
Medium label for 1 l safety container, not engraved	5.90.001-12
Medium label for 2 l safety container, engraved	5.90.002-11
Medium label for 2 l safety container, not engraved	5.90.002-12

Self-closing precision metering tap made of stainless steel - ideal for VisiCon safety containers

Details

Liquids can be withdrawn safely and in a controlled way with the self-closing precision metering tap.

- › Opens by pushing or pulling.
- › Self-closing prevents uncontrolled leakage of liquids.
- › Setting ring for adjustment, after installation vertically adjustable.
